## FOR IMMEDIATE RELEASE

### Traffic Realignment Set for U.S. Route 101 Over San Francisquito Bridge

**San Mateo County** – This weekend, the California Department of Transportation (Caltrans) will realign traffic on northbound U.S. Route 101 onto the newly-built portion of the San Francisquito Creek Bridge.

Starting at 10:00 pm Saturday, March 11, northbound traffic between the Embarcadero Road overcrossing and the University Avenue off ramp will be shifted away from the existing bridge structure onto the newly-built structure in the median. The traffic shift is expected to be completely in place by 7:00 am Sunday, March 12. Once traffic is shifted, construction crews will begin demolishing the old northbound structure, and will replace it with a new bridge section. Construction is expected to last approximately one year.
